

MAY

Calendar:
May 8th & 9th Spring Walk
May 10th & 11th Mother's Day Tea Parties

Spring is in the air! Well at least we hope it will stay this way. This month we will continue our learning about the world around us. The children were wonderful hosts to our worms and learned so much on how we can take care of our world. We will continue to learn about what plants, bugs and animals do in the spring. We also plan on spending more time outside as the weather continues to warm up for us. We will also host our Mother's Day Tea Parties that the children have been planning and getting ready for.

Items Needed:

- Playdough

May Learning Opportunities:

- Spring
- Plants
- Bugs
- Moms
