We start February with the celebration of the Lunar New Year. It will be a fun celebration with lots of involvement from families and parents that celebrate this holiday. If you would like to be involved, please let me know.

For Valentine's Day we will talk about the command from God to "Love your Neighbour". What does that mean? Who are our neighbours?

Please provide your child with an opportunity to earn a toonie. (empty the dishwasher, fold the towels, dust the living room – something beyond their normal chores/duties). The children will bring their earnings to school on February 11<sup>th</sup> and have the opportunity to use their hard earned money to purchase a food item for those in need. This experience is truly more meaningful when the children have a sense that they are sacrificing their own wants for the good of others (thus the earning of the money).

We will finish February and start March with art appreciation. We will be looking at a number of classic artists and creating our own masterpieces in their various styles.
