

# MARCH

## Calendar:

March 17<sup>th</sup> St. Patrick's Day wear green

March 22<sup>nd</sup> PD day No School

March 22-31 Spring Break

During the month of March we will be learning about our families, our communities and maps. We will begin our discussion with a look at maps and how they are made but also what they do for us. We would like to take a walk either in our community around the school or a trip to Nose Hill to take a better look at our larger community of Calgary. We then are going to build a community within our classroom; we will use some of our new artist skills and our keen observation and building interest to complete the project.

## Items Needed:

- Playdough
- Building supplies:
  - Medium to large cardboard boxes
  - Cardboard spools
  - Empty ribbon spools
  - Empty thread spools

## March Learning Opportunities:

- Community
- maps
